Introduction

Support organization to create accurate and future-ready competency frameworks for each emerging digital job role, considering the technical skill sets and proficiency levels required to perform that emerging digital job in the present and future. Develop Talent Development Solution as the base for assessing employees on their technical digital readiness, further helping organizations create simplified Learning Tracks that have minimum resource impact through accurate training needs identification and develop digital leaders who can continue the digital transformation journey.

Expertise

1. Talent Competency Assessment System (TCAS)

2. Quick Gap Talent Analysis

3. Talent Growth Share Matrix (TGM)

4. Digital Talent Hiring Improvement Plan (THIP)

3. Digital Talent Transformation Briefing (HR Perspective)

6. Annual Training Plan (ATP) Consultancy

Mottos

“The past is where you learned the lesson. The future is where you apply the lesson”
